### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 1-5, 35, and 36 are allowable in light of the applicant's amendments filed on February 19, 2003 and May 13, 2003. Note that site-specific nicking endonuclease in claims 1 and 35 is only considered as a site-specific endonuclease that cleaves only one strand of the DNA duplex at defined locations (see page 9, lines 27-29 of the specification) and can not be considered as a regular restriction endonuclease that cleaves both strand of the DNA duplex at defined locations. The closest prior art in the record is Wang *et al.*, (Molecular Biotechnology, 15, 97-104, June, 2000). This prior art either alone or in combination with the other art in the record does not teach or reasonably suggest a method for creating target single strand regions in a plurality of double stranded DNA molecules and a method for creating a target single strand region in a double stranded DNA molecule which comprise all of the limitations recited in claims 1 and 35.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Papers related to this application may be submitted to Group 1600 by facsimile transmission. Papers should be faxed to Group 1600 via the PTO Fax Center located in Crystal Mall 1.
